

MOHAMMAD ZIDANE RAHADIAN

SOFTWARE ENGINEER

ABOUT ME

I'm a passionate and adaptable Fullstack Developer with a strong interest in web development, UI design, and creative problem-solving. Although I don't have professional experience yet, I've actively worked on personal and academic projects that helped me sharpen both my technical and soft skills.

I'm always eager to learn, collaborate, and grow in environments that value innovation and continuous improvement. I believe that combining creativity with solid technical understanding allows me to contribute effectively to any team or project.
